--

We will offer after school tutoring for select students who need it based upon diagnostic data including special education students. The amount of students we can service will be based upon available funding. The district is funding two positions with the stipulation they focus on kindergarten and 1st grade students. Since few students in K/1 have IEPs, we will largely be focusing on GEE kids with these positions. We have secured a donor to pay for another position. They will focus on "yellow" kids from the diagnostic system (iReady) per the stipulations of the donor. If we have additional funds available, we will hire other positions and give priority to SpEd students to meet the requirements of the CSI-ATS status from the WVDE.
